### DETAILED ACTION

1. Claims 1-8 and 15-24 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art, either singly or in combinations, fails to anticipate or render obvious a microwave plasma processing system comprising an antenna having a plurality of substantially ring-shaped and substantially concentric antenna waveguides with each of the antenna waveguides having a substantially rectangular radial cross-section and comprising a proximal end portion configured to allow flow of the microwaves in only one radial direction, a terminal end portion, and a wall having a plurality of slots formed at a predetermined interval; a processing vessel; a microwave supply source; a connecting waveguide; and wherein at least one of the connecting waveguide and the proximal end portions of the antenna waveguides are configured to guide the microwaves supplied from the microwave supply source to the respective one of the antenna waveguides such that the microwaves in each of the antenna waveguides flow in the direction opposite to that of the neighboring antenna waveguide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
